PROFESSIONAL SUMMARY

Entry-level Frontend Developer with 2 months of hands-on experience building modern web applications using JavaScript, TypeScript, React.js, and Next.js. Proficient in responsive design with Tailwind CSS and capable of full-stack development utilizing Node.js, Express.js, NestJS, and GraphQL with database experience in MongoDB and PostgreSQL. Skilled in version control with Git and GitHub, and familiar with deployment platforms including AWS, Vercel, and Supabase for scalable application hosting.

EXPERIENCE

Softgrid Solutions

Jun 2026 — Aug 2026

Frontend Developer Internship

Remote

EDUCATION

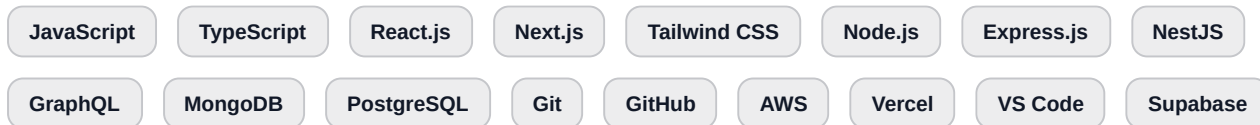

Saylani Mass IT Training (SMIT)

Sep 2025 — Sep 2026

1 Year Diploma • Modern Web & Mobile App Development

Grade / CGPA: Certified

CORE SKILLS

PROJECTS

Blog Post Web App

JavaScript • LocalStorage • HTML • CSS

Built a full CRUD blog platform using browser LocalStorage for persistent data — no backend required. Implemented create, read, update, and delete post functionality with a clean, intuitive UI.

Maths Matrix Calculator

JavaScript • HTML • CSS

Developed an interactive matrix calculator supporting addition, subtraction, and multiplication. Implemented dynamic input rendering and real-time result computation using vanilla JavaScript.

Todo Web App

JavaScript • CSS • HTML

Built a responsive task manager with add, complete, and delete features focused on clean UX. Leveraged efficient

PROJECTS

Todo Web App (continued)

JavaScript • CSS • HTML

DOM manipulation for instant, seamless user interaction.

Table Printer

JavaScript • HTML • CSS

Created a dynamic HTML table generator that renders formatted tables from user input on the fly. Demonstrated strong command of DOM manipulation and event-driven programming patterns.

45+ Classroom Assignments

JavaScript • HTML • CSS

Completed 37+ structured assignments covering core JS concepts, DOM manipulation, and responsive design. All work documented and published on GitHub, demonstrating consistent learning and discipline.
